

# Residential Plastic Brine Grids

## CONVENIENT...

Nestable design and leg extensions reduce warehouse space and inventory. One piece design eliminates lost and misplaced parts. Available with holes for 4" or 3½" brine wells and blank for custom fabrication.

## ECONOMICAL...

One piece construction eliminates assembly time required with old style grids. Nestable, light weight design substantially reduces shipping.

## DURABLE...

Rugged molded Polyethylene will not transmit taste, color or odor. Ribbed design provides maximum strength.

Temperature Range: 40-110°F (4-43°C)
