BENEFITS

Smoother Hair and Skin

Reduce scale buildup on fixtures, appliances, and plumbing

Enhances the effectiveness of soaps and detergents

Maintain the vibrancy and longevity of your clothing

Say goodbye to hard water spots

24 hour water coverage

OVERVIEW

The Aqua Magic Fleck 9100 SXT Series System ensures a continuous supply of soft water with a service flow rate of 20 GPM and the ability to switch between dual tanks. When one tank is depleted, the other seamlessly takes over, maintaining a round-the-clock soft water system. This system is equipped with post-treated water regenerant refill, a reliable DC drive, and backwash and brining capabilities for tanks up to 16" in diameter. Assembled using NSF-certified components.
