

GUARDIAN AIR DRAW PRO SERIES

FRAKCO

Your complete water conditioning headquarters

BENEFITS

High efficiency rate

Long material life

No chemicals required

CIOXFB150B & CIOXFB250B:

For reduction of **ferrous (dissolved) iron and manganese compounds**

Wide temperature performance range

CIOXFB150BC & CIOXFB250BC:

For reduction of **ferrous (dissolved) iron and manganese compounds**

Wide temperature performance range

CIOXFB150FA & CIOXFB250FA:

For reduction of **suspended solids**

CIOXFB150CR & CIOXFB150CR:

For reduction of **Iron, Manganese, Hydrogen Sulfide and Arsenic**

CIOXFB150CC & CIOXFB250CC:

For reduction of **Chloramines, Hydrogen Sulfide and Dissolved Organic Compound**

Large PH range

OVERVIEW

The Aqua Magic Air Draw Guardian Pro Series Digital Metered System provides a 27 GPM service flow rate. Assembled using NSF-certified components.

FEATURES

15-volt output DC power supply

Battery backup with 8 hour carry over

Easy to read error display

Few parts for servicing or replacing

Lead free components

Easy programming

Environmentally safe

Program maintenance reminders to display

Solid State microprocessor with soft touch silicone keypad

Four methods of initial regeneration

Meter Immediate

Meter Delayed

Time Clock Delay

Pressure Differential
